Data Analysis and Visualization by Kominfo

JANUARY 2024 - PRESENT
Student (Talent Scouting Academy) – Data Science

Training Description:
- Focus on training data talent in Data Analysis, Data Modeling, and Data Visualization with a Synchronous mechanism
- Asynchronous Training via platform, Guidance, and Project Monitoring
- Final Project reporting

SKILLS

Android Development

Project and Time Management

Data Science

Problem Solving

Communication and Collaboration

Developer tools: Git and Github, Firebase, Android Studio, Visual Studio Code

CERTIFICATION

- **Belajar Pengembangan Aplikasi Android Intermediate – Dicoding**
- **Simulasi Ujian Associate Android Developer – Dicoding**
- **Exploratory Data Analysis with Python for Beginner**
- **Statistic using Python for Data Science**
- **CCNAv7: Introduction to Networks – Cisco Networking Academy**
- **Network Security – Cisco Networking Academy**
- **BNSP Program Analysis Certification**

BEM Faculty of Informatics Engineering

MARET 2023 - PRESENT

Divisi Creative Director

- Designed promotional materials including Instagram content, posters, banners, and standing banners.

SMA NEGERI 1 BARUS

JUNE 2014 - MAY 2017

- Science Major

Universitas Bina Sarana Informatika

MARCH 2021 - PRESENT

- GPA: 3.91
- Bachelor of Information Technology (S1)

Relevant Courses:

- Mobile Programming (Flutter)
- Rekayasa Perangkat Lunak
- Object Based Programming
- Software Engineering
- Mobile Commerce
- Discrete Mathematics
- Logic and Algorithm
- Programming Basic

PROJECTS

Capstone Project

Member of the Android Development Team for the "SaveMoney" app in the Capstone program at Bangkit Academy, collaborating with Cloud Computing and Machine Learning teams.

LANGUAGE

- Bahasa Indonesia: Native
- Basic English Proficiency
